Installation Guide

Eco Edge

Site Preparation

Hedge can be placed directly onto soil, road base, sand, concrete surfaces & slabs. Site prep required is at the discretion of the installer dependent on above or below ground use.

Joining

Simply insert Hedge custom made straight joiners into the edging profile for a seamless, uninterrupted garden edge.

Fixings

- ✔ Use 1 x 250mm Fixing Spike per metre
- ✔ Use 1 x Spike Guide per metre

Corners

Achieving the perfect right angle is easy with Hedge custom made corner joiners. No additional screws or fixings are required.

Curves

Bend eco edge to the desired shape to create sweeping curves easily. Max radius 180°

Step 1 - Join

Step 2 - Connect

Step 3 - Install

Step 4 - Corners

Step 5 - Curves

Step 6 - Backfill

We love life and the outdoors

That's why we developed a range of garden edging products designed to meet all the requirements of landscape design and construction.

We wouldn't dream of using anything but quality finishes across our range of garden products.

Welcome to Hedge,

Products made by landscapers, for landscapers.
